

Billy Forgot His Multiplication!

Billy is a grade 4 student and he has forgotten his times table up to 12! Help Billy remember his times table with a program.

Instructions

Print out a times table from 1 to 12. Use loops to solve this problem (hint: nested loops will help). There should be a space between each number (the program doesn't need to be formatted like this).

e.g.

1	2	3	4	5	6	7	8	9	10	11	12
2	4	6	8	10	12	14	16	18	20	22	24
3	6	9	12	15	18	21	24	27	30	33	36
4	8	12	16	20	24	28	32	36	40	44	48
5	10	15	20	25	30	35	40	45	50	55	60
6	12	18	24	30	36	42	48	54	60	66	72
7	14	21	28	35	42	49	56	63	70	77	84
8	16	24	32	40	48	56	64	72	80	88	96
9	18	27	36	45	54	63	72	81	90	99	108
10	20	30	40	50	60	70	80	90	100	110	120
11	22	33	44	55	66	77	88	99	110	121	132
12	24	36	48	60	72	84	96	108	120	132	144
